The Seller shall be notified if a U.S Turbine & Accessory, LLC. Inspection is to be conducted on specific shipments.
2. One (1) copy of each certification document specified below shall accompany each shipment or payment will be withheld until certification is received. Certification shall be signed by a responsible member of the Seller's firm. Each certification shall identify the items covered by the certification. Materials received without certification may be rejected and returned at the Seller's expense. The Seller is responsible for the quality of the components it provides. If a non-conforming part is received by U.S Turbine & Accessory, LLC., the Seller must complete a Corrective/Preventative action Request (C/PAR) within a timely manner. If the Seller does not comply, U.S Turbine & Accessory, LLC. Will place the Seller on notice and possibly remove the Seller from the U.S Turbine & Accessory, LLC. Approved Vendor List (AVL).
 - a. General Compliance: The Seller shall provide a Certificate of Compliance that all materials, processes, and/or finished items supplied under this order are as specified by the U.S Turbine & Accessory, LLC. Purchase order.
 - b. Raw Material Identification: All raw material, including plate, bar, extrusion, and sheet of aluminum, steel, or other material, must be identified per the applicable specification.
 - c. Specific Compliance: The Seller shall certify that all parts, materials, processes and finished items supplied under this order were inspected, tested, and found to comply with the requirements of this order. The applicable drawing and/or specification and its revision shall be referenced if available.
 - d. Material Test Results: The Seller shall submit a chemical and physical test report for all materials shipped under this order with actual test results from samples representative of this material.
 - e. ESD Packaging/ Packing Requirements: Static-sensitive parts shall be packed in a conductive frame or with leads inserted in conductive elastomer or foam to protect them against electrical charges. External labels shall identify the package on at least two sides as containing static-sensitive devices. (MIL-B-81705)
 - f. The Seller's packing sheet and invoices are to reflect the same Mil-Spec and Seller's part numbers listed on the U.S Turbine & Accessory, LLC. Purchase Order.
 - g. A copy of a manually signed Seller's test results shall accompany the shipment.

- h. Calibration Control: The Seller shall control the calibration of all measuring devices against certified standards traceable to the National Bureau of Standards.
 - i. Part Identification: All items supplied under this order shall be identified with complete nomenclature and part numbers in accordance with MIL-STD-130 or as specified.
 - j. Process Control: The Seller shall maintain control and approval of all manufacturing (such as welding, soldering, plating, and painting) and inspection processes used in the performance of this order. The Seller shall maintain objective evidence of process qualifications in accordance with applicable specifications. The approval status shall be subject to review and disapproval by U.S Turbine & Accessory, LLC.
 - k. First Part Inspection: The Seller shall submit a sample first item for dimensional and functional approval prior to making production item(s). The Seller shall notify U.S Turbine & Accessory, LLC. when the item is ready for approval examination. Such examination may be conducted at the Seller's facilities or at the U.S Turbine & Accessory, LLC. receiving inspection area.
 - l. Traceability: The Seller shall provide objective evidence of the quality of the item supplied (manufacturing, assembly, inspection, test and special process records). When required by the Customer, contract, or authority, the Seller may be required to retain additional records for a minimum of two (2) years. These records shall be sufficient to prove conformance to all applicable specifications and drawings. These records shall be made available to U.S Turbine & Accessory, LLC. within forty-eight (48) hours upon request.
 - m. Critical and Limited Life Items: The date of manufacture and shelf life must be supplied with each limited life item.
3. All fasteners require inspection by the Seller before shipment to U.S Turbine & Accessory, LLC.
 4. The Seller shall maintain a Quality System in accordance with one of the following: ISO 9001:2000, ASA-100, AC00-56, AS9100, AS9110, AS9120, or FAR Part 145 when specified on the Purchase Order.
 5. Unless otherwise specified, the Seller must notify U.S Turbine & Accessory, LLC. of all non-conformances prior to delivery.
 6. The Seller shall obtain U.S Turbine & Accessory, LLC. approval for any change in product, product revision, and/or process that may affect product characteristics.
 7. The Seller must flow down all requirements listed on this Purchase Order, including key characteristics, to any subcontractor.
 8. No regulatory or statutory requirements may be waived.
